Tami -

Dorothy out today (due back Monday) and your voice mail message indicates you're out all next week -- will you be accessible?

A couple of quick items:

- I forwarded the announcement & agendas to the campus and asked them to help spread the word to students, campus employees, etc.

- KDLG will be a good venue for getting the word out – will you or Patti M/EPA be contacting them or working on a PSA for them?
- I called the Bristol Inn earlier today and they are “booked” through August 14 – for potential participants coming in from out of town (e.g. Egegik indicated interest in attending), I can call the B&B’s on their occupancy status.
- On the final agenda, it would be good to add the “community involvement” similar to the poster.
- On Monday I can print copies of the poster and put at the Post Office and stores, etc.
- Last – I committed to helping in the field with one of the projects the week of August 8-13th. Location is TikchikLake and I will make every effort to be in Dlg for the meeting on August 11th (weather permitting).

So the answer to your question below is a qualified yes to BBNA helping with “opening the meeting” with Curyung TC.

Sue

Subject: August 11th - Mining Information Session

Hi Sue & Dorothy,

EPA will be back in Dillingham on August 11th for the Mining Information Session, this is a rough agenda. We had several planning calls to cover topics that people wanted to have discussed and they will be incorporated into the day, however I really wanted to get an agenda out to folks so they could plan their travel.

Anyhow, I am wondering if Curyung & BBNA would like to open the meeting?

When we have done this in Betheland Aniak the local tribal government and the regional opened the meeting, so whatever is most appropriate for Dillingham. This would just be a short welcome and an invocation for the meeting.

I am working on a flyer that can be posted around town so that community members will hear about it.

I look forward to seeing you again soon.

Sincerely,

Tami
